ATHENS, Greece, Momentum Europe 2009 – November 10, 2009 – EMC Corporation (NYSE: EMC), the world leader in information infrastructure solutions, today announced its commitment to MoReq2 certification of EMC Documentum Records Manager. For European organizations and multinational corporations with European operations, a MoReq2-compliant records management solution from EMC will help them address the most stringent requirements for information governance and compliance. EMC plans to apply for MoReq2 certification next year.
