MoReq2010 Public Consultation Announcement

The MoReq2010 work programme was officially launched at the DLM Forum spring meeting in Madrid on 25th and 26th May 2010. Jon Garde of Journal IT, the selected contractor for the MoReq2010 programme, set out his vision for the work programme to be completed this calendar year and discussed future MoReq developments.

Following the announcement in Madrid, the first meeting of the MoReq2010 project team took place in London on 2nd June 2010. The team is made up of DLM members who are leading experts from both the public and private sector. The project manager is Martin Waldron of Weathervane Consult, co-author of the first MoReq project. The meeting included a demonstration of the consultation portal that will be used for the two public consultation phases of MoReq2010, before and after the summer. The consultation portal is web-based, easy to use, and utilises Objective Corporation's uEngage software. uEngage is a well established vehicle for hosting public consultation and widely used as a public communication and consultation platform in the UK government sector.

The first MoReq2010 consultation period of four weeks, styled the "concept
collaboration stage" of the programme, will begin in two to three weeks time. If you would like notification of the launch date please email the DLM Forum secretariat at secretariat@dlmforum.eu stating "Alert MoReq2010 Public Consultation 1". You do not need to be a member of the DLM Forum to take part in the public consultation.
